Hot Solutions for Prickly Problems

The Military and Federal Government spend more than **\$17 Billion Annually on Energy-related products and services!**

- Billions are being invested in products and services related to energy, resource, and environmental management
- Legislative and Executive mandates require Federal agencies to reduce annual energy consumption by 2% now and 30% by 2015
- GovEnergy's goal: assist attendees in meeting these mandates while effectively performing their jobs
- GovEnergy attendees are decision makers looking for partners to assist in developing energy services and equipment solutions

GovEnergy provides a unique forum to:

- Educate, inspire, and motivate people and organizations to increase energy efficiency and environmental sensitivity
- Raise awareness and increase knowledge of the latest energy-saving strategies, products and services
- Increase opportunities for energy and facility professionals to learn from and network with colleagues
- Assist Federal agencies to reduce energy use and costs to meet Federal energy mandates and additional guidelines
- Expose energy professionals to a broad spectrum of energy-related products, services and educational opportunities

GovEnergy Exhibitors maximize ROI with:

- Two full workshop attendee registrations per 10x10 booth
- Over 100 technical sessions
- Access to more than 1600 attendees
- Five limited-access passes for staff members
- High-Profile Corporate Sponsor Opportunities Available
- Showcase for products, equipment, and services
- Connections with results-oriented Energy Project and Program Managers
