

Second Annual Electric Vehicle and Equipment Showcase Call for Electric Vehicles and Equipment

GovEnergy invites electric vehicle (EV) manufacturers and infrastructure providers to exhibit their vehicles and equipment at the second annual *GovEnergy Electric Vehicle and Equipment Showcase*. The showcase will be held in conjunction with the *Transportation* track, a new series of training sessions. The *GovEnergy Electric Vehicle and Equipment Showcase* will occur in the exhibit hall, as part of the trade show.

The *GovEnergy Electric Vehicle and Equipment Showcase* is looking to display:

- ☀️ Electric Vehicles (EVs); including Battery Electric Vehicles (BEVs), Low Speed Electric Vehicles (LSEVs), and Plug-in Hybrid Electric Vehicles (PHEVs)
- ☀️ Electric Vehicle Supply Equipment (EVSE); including electric vehicle charging stations and other equipment designed to deliver energy to electric vehicles.

The federal community recognizes the value of EVs but may not be aware of the choices currently available in the marketplace. The showcase aims to educate GovEnergy's federal attendees on the numerous benefits of EVs as well the options, availability, and cost of EVs and supply equipment.

The cost to participate in the Electric Vehicle and Equipment Showcase is \$3,000.¹

Each participating company will receive the following:

- ☀️ 1 Booth space with carpet located in the Electric Vehicle and Equipment Showcase
- ☀️ 3 Exhibit Hall Passes
- ☀️ Recognition on the GovEnergy website and GovEnergy's Exhibit Hall signage

TO RECEIVE YOUR APPLICATION FOR THE ELECTRIC VEHICLE AND EQUIPMENT SHOWCASE, COMPLETE THE INFORMATION BELOW

Name: _____ Title: _____
